

Ph.D. Position Opening in 2027

Description

A fully funded Ph.D. position is available in the M.E. Rinker, Sr. School of Construction Management at the University of Florida, with an anticipated start date of **Spring 2027** or **Fall 2027**. Prospective students should be interested in one or more of the following research areas:

- AI and data-driven decision-making for construction projects
- Workforce development and training in the built environment
- Organizational behavior and culture within the industry

Qualifications

Applicants should have the following qualifications.

Required:

- A Master's degree in Civil Engineering, Construction Management, Architectural Engineering, or a closely related field
- Strong communication and teamwork skills

Strongly preferred:

- Programming experience (e.g., Python, R, MATLAB, or comparable languages)
- Prior research experience and/or publications
- Prior construction industry experience

For admission requirements, please visit <https://dcp.ufl.edu/rinker/academics/cm/phd/>

Application Instructions

Interested applicants should send the following materials to Dr. In Bae Chung at inbaechung@ufl.edu with subject line:

"Ph.D. Applicant – [Your Name] – Start [Semester]"

Required materials:

- 1) CV / Resume
- 2) Cover letter describing research interests and relevant experience (1 page max)

Applications will be reviewed as they are received. Shortlisted applicants will be contacted for further inquiries and potential interviews. Candidates must also submit a formal application for graduate admission to UF by August 15 (for Spring admission) or December 5 (for Fall admission).
